

MEMORANDUM FOR:

A/DCI

In this morning's briefing of the Vice President, one additional topic for "informal" discussion at tomorrow's SSG meeting was raised -- arms sales to Taiwan. He asked specifically:

1. Has Taiwan formally asked us for F5-E fighters?
2. If so, are they pressing the request?
3. Are there other fighters short of the F5-E that would satisfy Taiwan and also not disrupt our relations with China?

A briefing note on these questions will be ready for you tomorrow morning.
